The perfect tour for lovers Medieval and popular history

A beautiful excursion that goes through the city of Higüey, visiting our Basilica of Our Lady of Altagracia built in honor of our patron.

The Altos de Chavón village was built by Mr. Charles Bludhorn, President of Golf & Western Corporation who had the idea to build this 16th century Mediterranean village in the altos of the Chavón River.

The Altos de Chavón Amphitheater has 5.000 seats. It was inaugurated in 1982 with the presentation of Frank Sinatra and Carlos Santana. At present all year round shows of national and international artists, as is the case of Sting, Luis Miguel, Marc Anthony among others.
